

Following on from our historic development of STB/DVD/Blu-ray players with SD and HD-SDI O/P's we now offer alongside our recent UHD Blu-ray player with 12G-SDI O/P the first UHD Youview+ STB with 12G-SDI O/P for the Professional Broadcast market.

For Broadcasters that require ingest to their 12G-SDI routing infrastructure this new addition to our Ultra Enigma Range of 12G-SDI products provides a cost effective solution.

Ultra Enigma UHD STB is based on the Humax DTR-T4000/1TB for UK operation

Frontniche can also offer alternative STB's for individual countries that have UHD reception.

Features:

- 3840×2160 Resolution
- UHD/FHD/HD/SD Formats
- 1TB HDD (60 hours of UHD)
- 12G-SDI O/P
- Will Upscale SD or HD to UHD
